

# Snow Closing Reminders

In the event of heavy snows which would cause the cancellation, delay or early dismissal of school, there are a variety of methods for parents to find out if school is cancelled or will have a delayed opening.

Check the district website - [www.woodburysch.com](http://www.woodburysch.com) Any change in normal school hours will be posted on the front page of the website

Sign up for **Gloucester Alert** - you can register to receive an email or a text message with school changes. Gloucester Alert can be accessed from the district website or by obtaining a form in the main office.

Woodbury School District's emergency closing number is **806**. You can listen to KYW1060 AM radio - the radio station will read the closing numbers in numeric order and also group consecutive numbers.

KYW1060 also has a phone number to call, **215-925-1060**. You can call this number and follow the prompts to check if **#806** is closed or delayed.

Television stations are also notified. **Channels 3, 6, 10, and Comcast channel #5** will list the closing as Woodbury Public Schools (please do not look for Evergreen Avenue School). Our school district information is only listed as Woodbury, not Woodbury Heights or Gloucester County Schools.

If you have checked any or all of the above methods and do not see that Woodbury Public Schools are closed or have a delayed opening, then school will open and operate under our normal schedule.
