Katherine T. Estep  
Mathematics Coach

January 28, 2010

Dear Parent(s)/Guardian(s),

Back by popular demand! Students, staff and parents of the Woodbury Public Schools have made an overwhelming request to have the Math Olympics program take place once again in the district's elementary schools. You have asked and now you shall receive!

The Math Olympics program was created last year to give students a fun, meaningful way to apply standards-based, grade-level appropriate mathematical concepts. Today, your child attended the Math Olympic Kick-Off assembly where students learned the procedures of the Math Olympics and ways they can prepare. Here are some ways that *YOU* can help your child achieve in the Math Olympics:

1. Review your child's math homework with him/her
2. Practice basic facts with your child daily
3. Ask your child's teacher for recommendations specific to your child's needs
4. Review the Math Olympics activities sent home with your child
5. Play math-related board games or online games with your child such as:
  - Monopoly
  - Battleship
  - [www.coolmath4kids.com](http://www.coolmath4kids.com)
  - [www.funbrain.com](http://www.funbrain.com)
  - <http://www.coolmath-games.com>
  - <http://www.mathplayground.com/games.html>
6. Attend any math or NJ ASK workshops your child's school is offering

I hope that you have found this information helpful! If you have any questions, comments, or concerns regarding the Math Olympics or NJ ASK, please do not hesitate to contact me. Happy solving and let the games begin!

Sincerely,

A handwritten signature in cursive that reads 'Katherine T. Estep'.

Katherine T. Estep
